Limitations

There are inherent limitations in performing assurance, for example, assurance engagements are based on selective testing of the information being examined and it is possible that fraud, error or non-compliance may occur and not be detected. A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both the risk assessment procedures, including an understanding of internal control, and the procedures performed in response to the assessed risks. There are additional inherent risks associated with assurance over non-financial information including reporting against standards which require information to be assured against source data compiled using definitions and estimation methods that are developed by the reporting entity. Finally, adherence to the Appendix IV: Luxembourg Branch's 2019 Green Bond are subjective and will be interpreted differently by different stakeholder groups.

Our work is substantially less in scope than an audit conducted in accordance with International Standards on Auditing issued by the International Auditing and Assurance Standards Board. Accordingly, we do not express an audit opinion.

Our assurance work and report will not express an opinion on the effective and performance of the Bank's management system and procedure.

Our assurance was limited to the Luxembourg Branch's 2019 Green Bond issuance, and did not include statutory financial statements. Our assurance is limited to policies and procedures in place as at 31 December 2019, post issuance of the Luxembourg Branch's 2019 Green Bond.

Use of Report

Our responsibility in performing our assurance activities is to the Bank only and in accordance with terms of reference for this engagement as agreed with them. We do not therefore accept or assume any responsibility for any other purpose or to any other person or organization. Any reliance any such third party may place on the Luxembourg Branch's 2019 Green Bond issuance is entirely at its own risk. No statement is made as to whether the criteria are appropriate for any third party purpose.

Our Independence, Quality Control and Assurance Team

We have complied with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants. We have complied with the quality control requirements of the *International Standard on Quality Control 1* issued by the International Auditing and Assurance Standards Board. Our team has required competencies and experience for this assurance engagement.
